Appendix A.

School Site Semi-Annual Progress Report

The purpose of this evaluation is to determine if the school site is meeting the wellness goals set forth in the LESD Wellness Policy and to determine particular areas of strength or weakness. This evaluation must be completed semi-annually by the Principal or designee at each school site and made available to the public (website, newsletter highlights, parent letter, etc).

Please include as many additional comments as possible, as the Wellness Policy Committee and the Board would like to take note of best practices among the schools.

For items marked “Needs Improvement”, you must include a comment next to each question as to why you did not meet this goal and/or what you plan to do next year to accomplish this goal. (Examples: funding, sufficient staff support, other support/resources needed, etc).

If you have any questions regarding filling out this survey, you can contact Annie Ryu, Assistant Director of Food Services, at 310-973-1300 ext. 50049 or annie_ryu@lawndalesd.net.
