Southern California Thriving Schools Partnership Grant

Project Office

Kaiser Permanente Southern California Community Benefit partners with Community Partners to support the Thriving Schools Partnership Grant in the ABC Unified, Baldwin Park Unified, Chula Vista Elementary, Conejo Valley Unified, Fontana Unified, Hacienda La Puente Unified, Hawthorne, Jurupa Unified, Lawndale Elementary, Lennox, La Habra City, and Pasadena Unified school districts.

Community Partners, as the Project Office, delivers comprehensive technical assistance (TA) to the grantees, develops and facilitates learning opportunities, and provides strategic and logistical support.

Direct Technical Assistance

Provide tailored training and coaching support to increase the implementation capacity of grantees and stakeholder, parent, and youth engagement and leadership.

Learning Events

Develop and facilitate peer-to-peer learning community through in-person peer exchange, peer networking and group learning, teleconference and webinars.

The Fall Learning Community and Spring Childhood Obesity Conference is aimed to create relationships with other Thriving Schools Partnership grantees for the purpose of sharing ideas, resources and learning together.

The Virtual Brown Bag (VBB) is a quarterly web convening aimed at generating discussion and peer learning by grantees and their partners.

Specialized Technical Assistance

Identify school district TA needs and coordinate TA resources to support and advance their implementation efforts. Sample TA providers include Alliance for a Healthier Generation, California Food Policy Advocate and Safe Routes to School National Partnership.

Strategic and Logistical Support

Provide strategic and logistical support to ensure the success of the initiative by supporting Kaiser Permanente staff with the management and coordination of Thriving Schools Partnership Grant activities, including meeting logistics among key partners, annual school district site visits, and quarterly school district check-in calls.
